#### The City Loan. " Now you see it, and now you dink!"

The News of yesterday contains the report submitted by the Comptroller to the Common Coun. cil, on Monday evening last, presenting the account current of Mayor Cross with the City of Milwaukee, and exhibiting a balance in the Mayor's favor of \$17,298,81. As the report is dated Nov. 30, and must be supposed to cover all mon etary transactions between the Mayor and the City, up to that date, we looked it through with eager curiosity, to get the particulars of that city loan at 12 per cent. But we looked in vain. No such transaction appears there. Not a word is said about it by the Comproller, the Finance Committee, or the Mayor. They all persistently "keep dark" on this delicate subject.

But the figures of the Report are sufficiently suggestive, nevertheless. Let us condense them for the reader's information : J. B. Oness to City of Milwankee, Aug. 15, To City Bond account:

The average shave was about thirty-three per cert, and among the last sales reported, were 36 bonds Oct. 12 and 16, (while the Mayor was in New York hunting up that "loan") at 54 3-4 and 50 :—a shave of the city of the city of the city considerable interest, some forty of the city-sale concerning an attempt at lynching the prisoner, in case he is acquited. We regret to see, by the Standard, that some feeling has been excited, against that paper, by the recent removal of the city Post-Office from the East, to the West side of the river. This has been made the occasion of a quasi persecution against the Standard, which has been held responsible for the change. A number of the prominent citizens of Janesville have "stopped their paper," on that account, and the Standard, mistakingly as we think, has published their names. There has been error, on aboth sides .--The Standard was wrong, in publishing the names; and the parties were not less wrong, in stopping their papers for that reason. THEATRE-BEKEFIT OF MG. JONES-MR. A. J. CLARK AS DAMON .- There is to be quite an interesting entertainment at the Theatre to night on the occasion of Mr. J. H. Jones' Benefit. Mr A. J. Clark, a lawyer of this city, at the request of a number of our citizens, has consented to appear as Daman in the much admired play of Damon and Pythias. Mr. Clark is an amateur actor of considerable note, and from what we have heard from many who have seen some of his personations, we doubt not that his representation of Damon to-night will be a rich Dramatic treet. Although but a short time a resident of our city, he has succeeded in making many friends. He is a untive of the "Sunny South." and a public speaker of no inferior talent. There is always considerable interest to witness the performance of an aniateur, particularly when it is an exhibition of home talent, and indeed we often see in such performances mere desputie skill displayed then by " professional artists," so few of the latter are of the genuine stripe. Another Conspiracy Brewing. The more desperate partizans of " the Forty' in this State, chagrined and disappointed at the result of the late election, seem intent upon repeating the outrages and frauds by the help of

which they undertook, two years ago, to cheat the People and elect BARSTOW. Now, as then, the State Board of Canvassers, all Democrats, are confidently relied upon to aid and abet the purposed wrong. Now, as then, emissaries have been dispatched to various quarters of the State, to hunt up or manufacture "supplements," which the State Board are expected to allow. Now, as and News, are doing their best to invite the State Board to disregard their oaths, violate the law, tumper with the returns, and, by hook, or by grook, count out majorities for the Democratic candidates, and give them the certificates of elec-The columns of the Argus and News show,

from day to day, the progress of this conspiracy and the plans of its projectors. And the claims which these honest and law-abiding organs have simultaneously raised, about frauds in the canvasa, is but the old trick of the footpad to escape detection, by himself joining in the bue and cry of "Stop thief." The News of yesterday, how ever, while repeating this false charge against the Republican Canvessers, very clearly indicates what the party expects the Democratic State Canvassers to do ... That is, briefly, to count all 'supplements," that may be sent up to them, no fall out, honest man get their due." matter whence they come, or by whom certified, which will help the candidate on the Democratic State ticket; and to do this, in spite of the express language of the law and the author; zed construction by the Courts. In other words the News invites and incites the State Board, for the Ballothox.

We have no belief that the State Board will adopt this desperate counsel. Their duties are ment " of the votes cast, &c., and to declare the the Canvassers and not the People to decide who should fill the offices. Such, assuredly, is neither the spirit of our institutions, the language of our laws, nor the intent of our People; and we shall require something more reliable than the assurances of the News, to make us believe that the State Canvassers will, even at the urgent instigation of desperate politicans, usurp authority not belonging to them, violate the express letter of the law, and undertake to with the official canvass with the View of counting out a fictitious majority for themselves, o

Chiengo Times, has been all ent since the Union took the opposite tack. Whether it proposes to "go about" and follow the Union, or to stand on, in the wake of Senator Douglas and Governor took and Vernout. The matter was finally compiled the Union spoke before committing itself, and then declared for Buchanan against Walk. Etc. The Federal Office-holders in this State are in a lamentable quandary. They all own-their places to the influence of Walken and Duuglas, but they hold them at the pleasure of Buchanan and Cass. While gratitude requires that they should follow the fortunes of the former, policy dictates that they should maintain their allegiance to the latter. To sacrifice a fat office, in these hard times, for principle's sake, is a sirected of political virtue hardly to be expected. We look, therefore, to see our U.S. Marshal, Toltstier & Attorney, Postmaster, Collecter, &c. We look, therefore, to see our U.S. Marshal, District Attorney, Postmaster, Collector, &c., &c., reconsider their first rash conclusion on the subject and admit, after all, that the President must be right, because --- he is President.

#### Democratic Kansas Shricking.

The Detroit Free Press of the 30th stands munfully to its position taken against the Kansas iniquity. The Washington Union, in behalf of the President and the Slave Propaganda, had rebuked the contumnations northern democrats, in the following language:

the following language:

"We think the deliberate judgment of the country will sustain the action of the Convention, whils: the opposition to its action, so fiarcely manifested by the black republicans, conclusively shows that continued agitation is the real object they have in view. "We repeat our deep regret "that any of our democratic cotemporaries should be found co-operating with them in a course "calculated to prolong agitation. We repeat our carnest hope that when they see the true issue is between the Topeka and Lecompton or organizations, they will no longer be found co-operating with the black republicans."

The Free Press acknowledges the receipt of the affectionate rebuke, and replies with force.-It quotes from the Kansas Nebraska Law the

to the Union upon terms of perfect equality with Upon this the Free Press very truly gave :

Ko tight is recognized but the right of THY PEOPLE of Kausas, acting through the legally and fairly Expanses In not implied will of the MAJORTYPO ACTUAL RESURENTS, to form A CONSTITUTION, with or without Slavery. The CONSTITUTION must be the work of THE PEOPLE, setting through the largely and stairly aversaed acting through the legally and tairly expressed will of the majority of the actual residents, not through the will of the Lecompton Convention, which we know, and which the Washington Union knows, does not represent a tenth part of the actual residents of Kansas, and which has refused to whether the convention of the actual residents of the convention used to submit the constitution to the legally and fairly expressed will of the majority of the actual residents, for the sole reason, shamelessly avowed through the Washington Union, that the majority of the actual residents would vote it

We do not copy these and other declarations of the democratic press at this time because we have any great confidence that the papers which make them will stand firm. On the contrary, we have a right, from part knowledge of their obelience to the Slave Power, to expect that as soon as they find, from the Presidenc's Message, that he has fully determined to side with the ultra-South, they will become as weak as mice. We notice above that the Press Press Now ad-

mits that the Lecompton Convention did " not then, such reckless party organs as the Argus represent a tenth part of the actual residents of cratic papers we have had full confessions that they knew that the Republican papers were telling the truth when they told of outrages upon the people of Kunsas. And yet we met then with bold dvaids, or mann, dasterdly sneers, from these very prosses, who now "shriek" so

We have no confidence in the late Sham Democratic utterances. The truths which they confess to be such now, they knew were truths long ago. No new light has been shed upon them. To what intrigue among leading Democratic politiciangs we are indebted for these confessions we do not know, nor is it material. If they last long enough to send that Bogus Kansas Constitution back in disgrace from Washington, we shall consider is a marvel, and rejoice at it, as another il-Instration of the old adage that " when reques

If any otters have been disfranchised, or any returns illegally rejected by the Boards of County Carvassers, whereby a difference would be produced in the general result, the party or parties thereby wronged, have a prompt and ample remedy in the Supreme Court. But the State Board of Carvassers have no right whatever, to alter, amend, revise, or reject, the Carvasses sent up by the County Boards. The Revised Statues (chap, 6, see, 78) expressly declare that the sum of the counts of the counts and the counts of the c that relates to territorial legislation; in such case I have left it to be my duty, as one of the few survivors of the old school, to raise my voice against is, and to appeal to the cardid intelligence of my fellow-citizens to come to the defense of

I mean what I say, when I say the supreme court had as well been looking loto Robinson Crusos as looking into the constitution of the United States to find the power of Congress to legislate for territories; for it is not there, but in the ordinance of ST, adopted by the constitution and by the first Congress under Washington, and in their right as sovereign proprietors, haveing the right to govern what they have a right to acquire, and become their duty under the state cession acts and under the treaties of cession.—

The "needful rules and regulation clause," as the The "needful rules and regulation clause" as the

This head, growing out of the exigency of our argument, was merely named and sketched in the "examination," but afterwards well developed in the forthcoming sixth volume of the noridge-In that same "examination" will be seen the manner in which the act abrogating the Missonricompromise was passed, and the objects for which it was only the first step and the entering wedge; whereof the good people of the United States are at present proproofic of the Office states are at present pro-foundly ignorant; for telegraph reporting has about killed all popular knowledge of Congress proceedings, continuing their reports to results, too brief and mengre to show how Congress ares, and yet this is almost the only report of Congress de-ings which the people will read in this go a-head age of steam and electricity.
